Dear Parents / Carers

It was great to see parents at the OPAL meeting this week finding out more about this exciting project and the reasons we are doing it.

This week we had the Science Dome visit us and some of our Key Stage Two classes got to experience this. They were taken into space, through various habitats and also thrown into a volcano. From the mouth of one of our children 'WOW – this is absolutely amazing!'

We speak to the children a lot about our values and what they mean. Below is a reminder of them for you. We say to the children if they are displaying our values then they have 'Riverside Character'

- Curiosity
- Happiness
- Aspiration
- Respect
- Articulatory
- Community
- Teamwork
- Equality
- Resilience

Home School Support Worker Update:

We wanted to share an update that Mrs Barber has now been appointed as our new Home School Support Worker. She will begin this role next week. As she already works in school, she knows the children and some families. She will introduce herself next week to families on Dojo.

Wishing you all a great weekend.

Kind regards

Mrs Robson

Headteacher

2025-2026

Term 1

**Friday 26th
September**

Upcoming Events:

3rd October – 'Roots to Food' workshops for all year groups

This week we are celebrating....

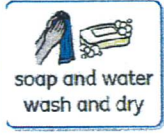

Amy - Squirrels

Thursday 25th September 2025

WALT: Investigate the importance of good hygiene.

Glitter Investigation

Prediction: Rate from worst to best (1-5)

 dry wipe	 soap and water wash	 wet wipe	 soap and water wash and dry	 shake
1	5	3	4	2

I think Soap and Water Wash is the best method because if you dry ~~it~~ your hands there might be more germs!

Results

1 Dry Wipe ✓

2 Shake

3 Wet Wipe

4 Water and Soap Wash

5 Water and Soap Wash and Dry

Water and Soap and Dry is the best method.

We completed an investigation to find out how to have good hand hygiene. We used glitter to represent germs on our hands.
